WAYS TO DONATE

UPDATES FROM THE RECREATION DEPARTMENT

Dear Winchester Recreation Families,

Welcome to Fall 2025! We're thrilled to share our new season of programs and activities with you. This year, the Recreation Department continues to expand opportunities for all ages with over 130 programs this fall, up from nearly 90 last year.

New for Middle Schoolers

We've made a special effort to broaden programming for middle school youth, including:

- Before the Bell: AM Gym Program (page 32)
- Middle School Ski Program (page 27)
- Dessert Lab (page 30)
- Young Engineers Society (page 30)
- Hike The Fells w/ Guineafowl Adventures (page 31)

Check out all our MS and Teen offerings on pages 27 - 32

Investing in Parks and Playgrounds

Beyond programming, we've been busy improving Winchester's recreational spaces in collaboration with other Town departments and committees. Recent projects include the Ginn Field Lighting Project, the Leonard and McDonald Playground Renovations, and the Leonard Tennis Court restoration. Looking ahead, we are advancing additional recreation projects through the Capital Expenditures process and the newly formed Winchester Committee for Community Preservation (WCCP). You can view current WCCP project proposals here:

[Town of Winchester Committee on Community Preservation](#)

Thank you for taking the time to explore our brochure. We hope you'll find a program (or several!) that sparks your interest this fall. If you have suggestions or would like to share your expertise by leading a program, we'd love to hear from you.

With gratitude,

Nick Cacciolfi

NEIGHBORS HELPING NEIGHBORS SCHOLARSHIP FUND

Did you know . . . The Recreation Department has a dedicated scholarship fund to help residents facing financial hardship? The Neighbors Helping Neighbors account is used exclusively for recreation program scholarships, ensuring more community members can participate in childcare and enrichment programs.

This fund is made possible entirely through donations from individuals and organizations. When registering, you may be asked if you'd like to contribute - every donation, big or small, makes a difference.

As the need for financial aid continues to grow, your support helps open doors for families in our community. To donate directly, click **[here](#)**.

KID CONNECTION PRESCHOOL (Ages 2.9-5)

REGISTRATION IS ON GOING!!!!

Contact director, sonja ferraguto at sferraguto@winchester.us for more information!

Celebrating OVER 30 years of preschool learning!!

Learning is fun at Kid Connection, a community-based preschool operated by the Winchester Recreation Department. Our focus is on developing the “whole child” supporting social/emotional growth and pre-academic skills. We have been serving the Winchester community for over 30 years, and pride ourselves on the longevity of our dedicated teachers and our low teacher/child ratio. Our theme-based curriculum combines learning through play with teacher directed activities in a nurturing environment. Enrichment opportunities throughout the year include music, gymnastics, local field trips, and more. We have large, bright classrooms and an expansive outdoor play area and sport court. We respect parents as their child's first educator and work together to create a strong home/school connection. This school year program follows the Winchester Public School calendar and is licensed by The Department of Early Education and Care (EEC).

CHILD CARE

WINCHESTER RECREATION AFTER SCHOOL CARE (WRAP) (Grades K-6)

The Winchester Recreation Department offers an EEC licensed after school childcare program for children entering K – 6 at our WRAP program, centrally located in the Recreation Department Mystic Building at 263 Main Street.

The WRAP program is licensed by the Department of Early Education and Care and follows the Winchester Public School calendar. Care is provided on all early release days, as those costs are built into the monthly fees. When schools are closed for vacations, holidays, professional development days or snow days, the programs are generally closed, however there are times where we may offer additional registration options, subject to additional fees. (Vacation Programs, No School Days/Teacher Professional Development Days)

Each WRAP classroom is specifically designed and outfitted with age-specific equipment and materials for a developmentally friendly space for each grade. The WRAP program has use of the gym, a newly renovated sport court, 2 age specific playgrounds and opportunities for children to enroll in a wide variety of enrichment programs offered at the Rec. Department during their afterschool care. Enrichment offerings are registration based and have included programs such as art, martial arts, fencing, cooking, language learning, STEM based programs, sports and fitness, and gymnastics. WRAP also provides additional enrichment opportunities throughout the week in their daily structure, activity-based clubs, homework time, opportunities for free and structured play, choice-based activities, and early release day field trips, performers, and special events.

PRICING/FEE STRUCTURE: \$50 nonrefundable registration fee

YOUTH LEAGUES

SUNDAY NIGHT LIGHTS FLAG FOOTBALL (Grades K-8)

Get ready to grab your flags and hit the field! Winchester Youth Flag Football is all about fun, friends, and football in a safe and exciting environment. Players will learn the fundamentals of the game: running plays, passing, catching, teamwork; while building confidence, character, and sportsmanship along the way. Each week, teams will warm up with practice time before games, giving coaches a chance to introduce new skills and strategies that kids can put into action right away. Teams will be made up of 8–10 players to keep games fast-paced and fun (please note: no team requests to help keep play balanced). Every player receives a game shirt and plenty of playing time. Whether it's your first time trying the sport or you're ready to sharpen your skills, this program is the perfect way to stay active, make new friends, and enjoy the great game of flag football!

Registration is currently open! Registration deadline September 5th.

Dates: Sundays, September 14th to October 26th

YOUTH LEAGUES

YOUTH WRESTLING PROGRAM (Grades 3-8)

The Winchester Youth Wrestling Program welcomes wrestlers of all skill levels in grades 3–8. Practices are held twice a week, with a strong focus on building fundamentals and technique.

The season runs December through mid/late February, with weekend competitions in December and January that prepare athletes for postseason tournaments. Participation in these weekend events is encouraged, as it's the best way to grow and gain experience. A full competition schedule will be available in December.

What to Bring:

- Active clothing (t-shirt and shorts)
- Wrestling shoes
- Headgear (required at all practices and competitions)

Included with Registration:

Each participant receives a team t-shirt, shorts, and sweatshirt. Please provide sizes when registering.

Location: Recreation Department Gym

Detailed information on practice times, fees, and coaching staff will be released in late September, with registration opening in early October.

Volunteer Coaches Needed!

Our wrestling program depends on dedicated volunteers.

KIDS' TEST KITCHEN (Grades K-5)

On a mission to get eaters of all ages and abilities, cooking, tasting, and thinking about healthy ingredients! We are redefining kid food! Each class presents students with opportunity to explore new or familiar foods in their raw, unmanipulated state. Then, working as a team, they'll slice, dice, peel, measure, and cook until they've prepared the finished dish. Class closes with opportunity to taste the result of their hard work. Students receive a printed recipe card and the focal ingredient; or a sample of the finished dish so they can show off what they learned! Even the most reluctant eaters enjoy Kids' Test Kitchen, where participation is encouraged, and the choice to taste is always one's own. Lessons are planned to celebrate seasonal produce, whole grains, and legumes. Kids have food allergies, but they shouldn't miss out on the fun. We know allergies and can work around them, making sure that everyone is having fun and staying safe. (6 weeks)

YOUTH COMPUTER PROGRAMMING

INTRO TO COMPUTER PROGRAMMING WITH PYTHON: Level 1 (Grades 5-8)

The class is a 15-week course that covers the basics of “real” computer programming in Python, an easy-to-learn language that is used today in many companies. Students will learn how to read, write, and modify basic Python programs, learn about variables, loops, if-then-else statements, and functions.

Some of the topics covered include how to use Python to do math problems, draw pictures, write a quiz, make secret messages, and do cool things in Minecraft (Pi Edition).

Previous typing experience is very beneficial. Previous programming experience is not expected. The class material is challenging and is best suited for students who like computers and enjoy problem-solving. This class is the first semester in a series of 4 semesters of Python programming. Class size will be limited to ensure that each student receives the support they need.

Students who wish to learn more about computer programming can continue with more advanced material in Python Level 2, Python Level 3, and Python Web Programming Level 4.

Required Supplies: There is an additional one-time cost to purchase the Raspberry Pi educational computer. You can find the links to Amazon on our website at Raspberry Pi 4 educational computer. Students will use it for their classwork and homework. They will be required to bring it with them to class each week. We will put them together on the first day of class. You do not need to set them up in advance. (15 weeks)

If you already own a Raspberry Pi 3, you do not need to purchase a new one. Please confirm the version with us first.

For more information, please contact classes@blackrocknetworks.com. (15 weeks)

YOUTH COMPUTER PROGRAMMING

INTRO TO JAVA: Level 1 (Grades 7-10)

This course covers the basics of Java, how it is different from Python, and what the two languages have in common. Learn about the Java Virtual Machine (JVM), and what compiling a program means. Students will learn about implementing and debugging algorithms to solve problems, and will focus on object-oriented software development strategies. Students will use Interfaces and Classes and understand the differences between them. They will learn to use the different levels of visibility that Java allows when writing their programs, and will explore some of Java's APIs for input and output, as well as its support for data structures such as Lists, Maps, and Trees. Students will become familiar with JavaDoc, and how to search the Java documentation to answer their own Java API questions. (15 classes)

TEEN COLLEGE AND JOB INTERVIEW WORKSHOP (Grades 8-12)

Do you have a high school student getting ready to interview? Are you a teen looking for an internship or preparing for a college interview? Interviewing can be challenging for students especially when they haven't interviewed before. However, putting one's best foot forward during an interview is a critical step towards landing a great job during high school, and a valuable skill to develop for the future. Parents, think back to your first interview. Did you know what to expect or say? Interviewing can be a stressful experience for teens whether they are looking for their first job or going to their first college interview. Learn self-presentation skills and important talking points to help succeed at an interview.

YOU CAN AFFORD COLLEGE IF...

you PLAN in advance; you UNDERSTAND the financial aid process; you ACT early enough to be successful. Financial aid goes to the families who plan and act in advance - before December of the child's sophomore year of high school. This course will teach you the concepts and strategies that will help you maximize your financial aid by understanding the process and why implementing strategies may increase a family's eligibility even if you have a "high income" or own a business. The greatest amount of financial aid goes to the families who act in the early years of high school. REMEMBER: Procrastination equals less financial aid. All schools are not alike, so it is important to know your options and opportunities. A free financial aid analysis will be available to all attendees. BALANCE AND SAFE FALLING

In the United States, around 3 million older adults are treated in emergency departments annually for fall-related injuries. This program is intended for active and healthy adults who want to improve their balance; reduce the fear of falling; and learn how to fall safely.

Participants first master basic movements and progress to more complex balance and safe falling skills. Training occurs in a group setting but is personalized as participants practice only those movements he or she can safely and comfortably perform.

Every session includes balance training designed to enhance the body's ability to sense its position in space (proprioception) and the feeling of movement of the limbs (kinesthesia) with the goals of preventing falls and reducing the fear of falling. Participants also practice well-established techniques on how to take a fall safely. (10 weeks)
