Welcome to Kid Connection!

- Kid Connection is a creative, engaging preschool program that supports early childhood learning and development in a nurturing environment.
- Our theme-based curriculum combines learning through play with teacher directed activities, with a focus on social emotional development, kindness, positive behavior, and growing independence. Preschool is a place where children are safe to be themselves and explore through hands-on experiences.
- Children learn through play- In addition to early learning concepts of number, letters, early literacy, science, and more, children are learning to socialize with others, develop self-control, ask questions, and advocate for themselves. They learn to follow direction, follow routines, and learn responsibility for themselves and others.
- We offer half day classes from 3 to 5 days, for ages 2.9+ as of September 1st. We also offer extended day options and a full day prekindergarten class. Our school year aligns with the Winchester Public school calendar (holidays, vacations, conference days, snow days)

OUR MISSION STATEMENT

We believe that children learn through play, with the support and encouragement of highly qualified early childhood educators. Our mission is to provide a creative and nurturing environment where children develop a love for learning, and can learn and grow through hands-on experiences. We strive to build on the support provided by each child's family and their community, with respect for diversity and the unique needs of every child.

Our program is licensed by the Commonwealth of Massachusetts, and our curriculum follows the Guidelines for Preschool Learning Experiences developed by the Massachusetts Board of Education.

Curriculum & Enrichment

CURRICULUM AND ENRICHMENT

Our dedicated teachers design a **theme-based** curriculum, combining a “learning through play” approach with teacher directed lessons to create a rich learning environment.
